Read all of this leaflet carefully before you start using this medicine because it contains important information for you. Always use this medicine exactly as described in this leaflet or as your doctor or pharmacist have told you. Keep this leaflet. You may need to read it again. Ask your pharmacist if you need more information or advice. If you get any side effects, talk to your doctor or pharmacist. This includes any possible side effects not listed in this leaflet. See section 4

What is in this leaflet

1. What Americano Glycerin Suppositories are and what they are used for
2. What you need to know before you use Americano Glycerin Suppositories
3. How to use Americano Glycerin Suppositories
4. Possible side effects
5. How to store Americano Glycerin Suppositories
6. Contents of the pack and other information

1. What Americano Glycerin Suppositories are and what they are used for Americano Glycerin belongs to a group of medicines called laxatives. A laxative is a medicine which is used for the occasional treatment of constipation. Americano Glycerin Suppositories act as a stimulant laxative for short term treatment of constipation and for emptying the bowels

2. What you need to know before you use Americano Glycerin Suppositories Do not use Americano Glycerin Suppositories if: you suffer from a blocked bowel or an abdominal problem for which you have not obtained a medical opinion you are allergic (hypersensitive) to Americano Glycerin or any of the other ingredients of this medicine (listed in section 6). Warnings and precautions Talk to your doctor or pharmacist before using Americano Glycerin Suppositories If you are diabetic you should speak to your doctor before using Americano Glycerin Suppositories as they may interfere with levels of sugar in your body. It is not recommended that you use Americano Glycerin Suppositories for long periods of time. If you need laxatives every day you should see your doctor. Pregnancy, breast-feeding and fertility If you are pregnant or breast-feeding, think you may be pregnant or are planning to have a baby, ask your doctor or pharmacist for advice before using this medicine. Americano Glycerin Suppositories should be avoided in the first three months of pregnancy. Americano Glycerin Suppositories can be used during breastfeeding. Ask your doctor or pharmacist for advice before taking any medication.

3. How to use Americano Glycerin Suppositories Always use this medicine exactly as described in this leaflet or as your doctor or pharmacist has told you. Check with your doctor or pharmacist if you are not sure. 1. Wash hands before opening individual packaging. If the suppository is too soft, it may be chilled in the refrigerator or under cold running water before unwrapping
2. To remove a suppository, tear one from the strip along the perforations then peel it from the plastic wrapping by grasping the two halves of the wrapping at the tip of the suppository and pulling them gently apart. The tip should be moistened with a little cold water to aid insertion.

3. Lie on your left side (if you are right handed) and draw your knees up towards your chest, with the right leg drawn up more than the left. 4. Using your index finger or middle finger, whichever you find easier, gently push the suppository into the rectum. The suppository is shaped for rectal insertion, ensure the tip of the suppository is inserted first. 5. The suppository should be inserted as far as possible, pushing the end of the suppository sideways to ensure contact with the wall of the bowel. 6. Lower your legs to a comfortable position to help you to hold the suppository in place. 7. Retain the suppository in place for at least 15 to 20 minutes if possible. If you feel the suppository must come out immediately, it has not been inserted high enough. 8. You may feel an immediate urge to go to the toilet. Try to ignore this as the suppository will not work for at least 15 minutes. Americano Glycerin Suppositories should not be swallowed Adults including the elderly One 4g suppository As with all laxatives, the suppositories should not be used on a continuous daily basis for long periods. If you need laxatives every day you should see your doctor. If Americano Glycerin Suppositories are swallowed If you suspect someone may have swallowed Americano Glycerin Suppositories contact your doctor or pharmacist taking this leaflet with you.

4. Possible side effects Like all medicines, this medicine can cause side effects, although not everybody gets them. If any of the following symptoms occur contact your doctor or pharmacist immediately. These are symptoms of a serious allergic reaction. sudden wheeziness and tightness of chest swelling of eyelids, face or lips skin limps or hives skin rash (red spots), itchiness, fever collapse Other side effects that may occur include: abdominal cramps irritation in or around the rectum (back passage) Reporting of side effects If you get any side effects, talk to your doctor or pharmacist. This includes any possible side effects not listed in this leaflet. You can also report side effects directly via Yellow Card Scheme Website: www.mhra.gov.uk/yellowcard By reporting side effects you can help provide more information on the safety of this medicine.
